

Random Velour Carpets (with mouldable & non-mouldable coatings)

Inno Textiles manufactures various qualities of random velour non-woven carpets ranging from very light decorative fabrics, to heavy duty floor carpets for OEM car manufacturers. We can also design and manufacture any quality to the customer's specification upon request, volumes permitting. These carpets can be supplied uncoated, or coated with various coatings to give either a soft or firm handle. The carpets are also supplied with a non-slip or thermo mouldable coating and are sold in roll form on widths of up to 2.0m. Typical applications include aftermarket automotive; original equipment fitment for car manufacturers; car-mats; boating; etc.
